Customer Name	Date In	Type of Equipment	Customer's Project Status	Statement For Customer	Delivery Req	Pick Up Req
Gary Braman	8/1/2022	Generator - Gas - 120 / 220 VAC	Waiting For Parts		<input type="checkbox"/>	<input type="checkbox"/>
idle control will not work. Diagnostics - both coil resistance good and board output good. Can only assume idle control coil weak as governor system seems normal other than not enough coil strength. Extensive effort to obtain the correct part number by the Generac Factory has thus far failed - 8/25/2022. Now factory wants a picture to identify the part! 9/8/2022 still no part Number.
